City of Wilmington

LEAF

&

YARD WASTE

Collection

2016

OCTOBER 24-DECEMBER 9

Dennis P. Williams
MAYOR

When the City vacuum trucks are in your community to collect leaves:

- All leaves should be placed in the street, next to the curb.
- City sweeper/vacuum trucks will collect the leaves from the street.

When the City vacuum trucks are not in your community to collect leaves:

- All leaves should be bagged and placed at the curb.
- Please only use PAPER BAGS so City yard waste collection crews can easily identify your leaves.
- Call the Public Works Call Center for pick-up at: (302)576-3878

Community Clean-Ups

- To coordinate your fall community or neighborhood leaf pickup for yard waste, please refer to this schedule to find out when we are in your neighborhood. For any additional leaf service after 12/9/16, or for special requests, please contact our Public Works Call Center at (302)576-3878.
- Please note: Not all city streets can accommodate leaf vacuum services. In those cases, small amounts of leaves should be placed into brown PAPER BAGS for manual pickup service. Please call the Public Works Call Center at: (302) 576-3878 in advance, to arrange pick-up days and times.

Private Contractors:

In some cases, residents with a large volume of leaves will utilize a private contractor to move leaves to the curb, or remove them completely. To help to ensure a timely response for pickup for leaves left at the curb:

- Please only use PAPER BAGS so City yard waste collection crews can easily identify your leaves.
- Please provide contractors with the pick-up schedule for your area.
- Additionally, please call the Public Works Call Center at: (302) 576-3878 to arrange collection of any leaves blown to the curb, which may require a special request for service at a later date.
