\*\* After the zoom call concluded but before the Purchasing and Auditing Department had left the conference room one of the guards from the first floor came in and presented us with a bid. This bid was from Sam's Construction LLC. The guard indicated that it was delivered at 12:30 PM and the guard directed the bid to be placed in a locked Finance drop box. This was the incorrect box; however, the bid was clearly in the possession of the City of Wilmington long before the 3:00 PM deadline.
